Bicycles

Queensland law requires that cyclists protect their heads by wearing properly fitted safety helmets.

Bikes, scooters and roller blades are not to be ridden in the school grounds at any time.

Bus

A school bus service operates for children on rural properties along the Peak Downs Highway towards Clermont.

Car Transport

Parents are requested to carefully follow road and parking rules around the school. Student’s safety is paramount and drivers need to be aware some students may make unsafe choices.

Walking to School

Children walking should come to school by a direct path. Please discourage children from stopping on the way to school. Please discuss road safety rules with your children. Road safety rules will also be discussed at school.

School Crossing Supervisor

In the mornings from 8.10am to 8.40am and in the afternoons form 3:00pm until 3:30 p.m. there will be a School Crossing Supervisor (“Lollipop person”). Students are required to cross at this point and follow the Supervisor’s directives. Motorists, including parents, should realise that it is regarded as both illegal and “driving without due care/dangerous driving” to disobey the directives of the Crossing Supervisor.
